

# Python Project 2025

## Instructions

Access the project files from the link below:

<https://www.kaggle.com/datasets/jogwums/air-crashes-full-data-1908-2023/data>

NOTE: Download the updated CSV file.

Create your jupyter notebook, showing your:

1. Research questions
2. Data preparation and cleaning
3. EDA
4. Charts and Graphs
5. Findings and Recommendations

Create your Streamlit App and host it on streamlit Cloud.

## Submission Method

Upload your NOTEBOOK with all result cells showing to your GitHub account.

Then Host your streamlit APP.

1. Send the github repo link to me via email ([registrarhti@hiitplc.com](mailto:registrarhti@hiitplc.com)) or WhatsApp.
2. Send your app link after hosting it.

## Project Duration

1 month
